

SMARTTRACK
COLLEGE SUCCESS
The Smartest Way to Navigate College

The Davis Family — Maya, University of Alabama (Sociology)

Status: Graduated, now pursuing a Master's in Family Therapy

"When our daughter Maya entered her junior year at the University of Alabama, she was lost. She had changed her major multiple times, taken classes that didn't count toward her degree, and was starting to feel like college just wasn't for her. What we didn't realize at the time was that all of this bouncing around was delaying her graduation—and quietly draining our savings."

"That's when I found SmartTrack and Dr. Terrell. From our first call, I knew he was exactly who Maya needed. He stepped in immediately, helped her assess her credit hours, took over her course planning, and—most importantly—helped her focus. He didn't just keep her on track academically. He helped her find clarity and purpose."

"Dr. Terrell connected Maya with a professional mentor in the human services field, helped her see how her passion for people aligned with sociology, and supported her as she explored next steps beyond graduation. With his guidance, Maya finished her degree on time—and with confidence."

"She's now pursuing her master's in Family Therapy and has a clear sense of direction for the first time in years. We cannot recommend having someone like Dr. Terrell in your corner highly enough."
